

NORGES STATSBANER

BANK POOL

When a company nationalizes, leave one 10% share here, and check certificate limit.

No more than 50% of a company's stock in the Bank Pool
The president's certificate can not be sold to the bank - it triggers a change of presidency

At end of stock round, companies with:
- stocks in the bank pool move one step left on the stock market.
- no stocks in treasury and bank pool move one step right on the stock market.

Map Overview: The map shows the hexagonal grid of Norway and surrounding areas. Major cities like Oslo, Bergen, and Trondheim are marked with yellow hexagons. Nationalized companies are shown in red hexagons. The Arctic Circle is indicated by a dashed line. The Jotunheimen mountain range is labeled across the center. The board includes a coordinate system from 1 to 37 on both axes and letter markers A through K along the bottom.

Bank Pool Rules:

- No more than 50% of a company's stock in the Bank Pool
- The president's certificate can not be sold to the bank - it triggers a change of presidency
- At end of stock round, companies with:
 - stocks in the bank pool move one step left on the stock market.
 - no stocks in treasury and bank pool move one step right on the stock market.

Game End Conditions:

- NR (No Rail) condition: If all rail connections are broken.
- SR (Stock Round) condition: If a stock round cannot be completed.
- GAME END condition: If the above conditions are met.
